

1. This video is brought to you by _____.
2. Energy, light, and sound all travel as _____.
3. Bill playing the guitar is an example of what type of energy? _____
4. The distance from wave to wave is called _____.
5. How often waves repeat is called their _____.
6. Draw a high frequency wave. _____
7. Draw a low frequency wave. _____
8. Energy travels in what direction? _____
9. Draw how the amplitude is measured. _____
10. All waves have a similar _____.
11. What spectrum is made up of different waves? _____
12. What do radio waves bounce off of before returning to the earth? _____
13. X-ray waves are _____ than light waves so they have higher _____.
14. Waves are hand crafted by _____ on the ocean.
15. Earthquake energy travels as _____.
16. Earthquake waves are called _____ waves.
17. Amplitude is the _____ of the wave.
18. Musical instruments make sound _____.
19. Low note = long pipe = _____ waves.
20. Sonar uses _____ waves to tell how _____ things are in the water.
21. Amplitude describes a wave's _____.
22. Energy moves in _____.
23. Draw a wave. Label the frequency, amplitude, and wavelength.
